There will be a \$3/unit/day fee charged for additional vehicles or trailers per campsite.

All day and/or overnight guests and visitors **must** be registered **before or upon arrival** to GAFC per State of Wisconsin Registry regulation DHS 178.24(2). There is a **\$5/guest/day fee** charged before or upon arrival to the campground. **Guests will receive a wrist band** which will include use of all campground amenities. Campground well water is tested annually by the State of Wisconsin and at the discretion of our Chippewa County Public Health Inspector. Our well water is certified safe for use as potable water for human consumption. Campground treats their well water with a Commercial Water Softening System as an additional amenity to the customer. The system is scheduled to regenerate during off peak hours, but at times may regenerate during high demand periods. During the regeneration period, softened water will not be available and may turn camper fixtures orange with rust staining.

Each Campsite is supplied with a Back Flow Preventer (BFP) on the water spicket. As required by State of Wisconsin regulation DHS 178.14(4c). BFP's must remain intact at all times as a preventative measure against contamination of our water supply system. The BFP's are owned by the Campground and shall not be altered in any way, shape or form by the Camper. You will experience water output when turning the water on or off. **This is normal.**

The Campground cannot, and will not, be responsible for loss of any kind and it is mutually understood that the Camper hereby releases the Campground from any and all liability. **We cannot insure what we do not own!**
